SDG1: No poverty

1.3.4 - Does your university as a body have programmes or initiatives to assist students who fall into the bottom 20% of household income group (or a more tightly defined target) in the country to successfully complete their studies?

Alnoor University always strives for the best to support students' success in obtaining job opportunities with the goal of eliminating poverty. The university has provided many opportunities, including:

1. Supporting talents that provide financial returns for the individual.
2. Opening investment projects for graduates, such as a supermarket inside the university, a cosmetics store, an electronic library, and a library for selling stationery.
3. Handicrafts and painting exhibitions in order for the proceeds to support low-income families .

The Business Administration Department It is a competition targeting university students who have a passion for entrepreneurship or have innovative ideas or commercial projects. Participating students will benefit from learning several topics related to entrepreneurship, design thinking, business model planning, marketing, sales, and various other topics. ...A special invitation to students of Alnoor University to register and compete in this competition. and the qualifying students will participate in a two-day workshop where they will work as teams and the best ideas will qualify for advanced workshops that will be online for a month, after which the best 3 ideas will be selected from the total of all participating universities.

Alnoor University participates in the International Conference on Sustainable Development

Alnoor University participated in the work of the International Conference on Sustainable Development held in the period 12-16 February 2023 at Mosul University under the slogan ""Quality of life""

The Media Office of AlNoor University clarified about the participation of 460 students from the C university supervised by Asst. teacher, Dalal Waad Allah Shehab where the students participate in several workshops on sustainable development goals, students' ideas and proposals to support sustainability in our city will be presented at the closing ceremony of this conference.

The conference activities come in cooperation between the University of Mosul, the German University of Dortmund, the Austrian Kräz, and the participation of Al-Noor University and other universities.

The ceremony began with a recitation of verses from the Holy Quran, recited by Dr. Abdul Malik Suleiman, Director of the Student Activities Department at the University of Mosul. After that, the audience stood to read Surat Al-Fatihah for the souls of the righteous martyrs of Iraq, followed by a welcome speech by the President of the University of Mosul via a video recording, then a speech recalling the achievements of the departed Prof. Dr. Anwar Mustafa Al-Faydi, a lecturer at the College of Science, who managed, over a period of six years, the coordination work between the University of Mosul and the participating foreign universities, so that the audience stood to read Surat Al-Fatihah as a tribute to his pure soul, followed by an introductory speech about the conference's work, delivered by Prof. Dr. Nazim Al-Watar, Director of the German Corner in the Presidency of the University of Mosul, then A video recording of Prof. Dietwald Krohn's speech, director of the RESI project from the German University of Dortmund, was shown. After that, a group of children from the Ishtar School gave a singing performance on stage, and the Friends of the German Embassy in Baghdad had a video recording of the Chargé d'Affaires of the Embassy there, in which he welcomed the establishment of this distinguished conference. Which highlights the energies and ideas of students and their contribution to

the quality of life, expressed his pleasure at the return of the University, referring to the Great University Theatre and the Central Library, which have recovered from their near destruction. Prof. Dr. Heike Wendt from the Austrian University of Krüz gave an introduction to the RESI program and the objectives behind holding the seventh student conference between the University of Mosul and the German and Austrian universities of Dortmund and Krüz, and emphasized the necessity of investing students' ideas and scientific energies towards improving life and its quality. Dr. Amal Zidane also presented the conference. Introducing the conference and the most important topics and scientific workshops that will be on the sidelines of the conference, Asst. Prof. Dr. Muhammad Wajid Teacher at the College of Education for Girls presented an introductory paragraph of the efforts of the University of Mosul in international cooperation with international institutions and universities in order to serve students and the Seventh Student Conference. This is evidence of that, calling on students to intensify efforts and liberate distinctive scientific energies and ideas for the quality of life in Mosul and in Iraq in general. The celebration concluded with a theatrical performance presented by people of determination from the Happy Childhood Foundation, expressing pride in their distinguished participation in order to unify their energies and invest them positively in serving the nation. After the conclusion of the conference celebration, scientific workshops began for the participating students on its first day. Lecture halls were distributed in the colleges of education for girls, science, computer science, mathematics, and the central library.

The university's plan for the admission of non-Iraqi students for the academic year 2023/2024, in response to the directives of the Ministry of Higher Education and Scientific Research through the "Study in Iraq" initiative, and in implementation of the directives of the Dean of Al-Noor University College, Professor Dr. Yassin Taha Al-Hajjar, has launched the application link for non-Iraqi students wishing to complete their undergraduate studies at our universities.

In the same context, Al-Noor University College announced the completion of its plan to welcome non-Iraqi students, which includes offering free scholarships in various departments of the college, with the aim of promoting cultural exchange and enhancing the academic level through the admission of students from different nationalities. The plan provides 3 seats for each specialization, with a total of 39 seats.

The media office at Al-Noor University College indicated that the plan includes the following specializations:
