<p><b>Total area on campus for water absorption besides the forest and planted vegetation (Alnoor University, Iraq)</b></p>	

Total **water absorption** area: 1500 m<sup>2</sup>  
 Total Area: 84253 m<sup>2</sup>  
 Percentage area: 2%

University continuously plant trees to prepare a drought resistant landscape not only in the campus but also nearby other regions of Mosul city.

 A photograph showing a dense row of young, green trees planted in a field, with a dirt path leading through them.	 A photograph showing a wider view of a planted area with several trees and green grass in the foreground, under a clear sky.
