17 PARTNERSHIPS FOR THE GOALS

The world today is more interconnected than ever before. Improving access to technology and knowledge is a crucial way to exchange ideas and foster innovation. Additionally, coordinating policies to help developing countries manage their debts, as well as encouraging investment in the least developed countries, is vital for achieving growth and sustainable development.

Partnerships For The Goals

As part of enhancing academic cooperation and exchanging expertise between universities, and establishing a unified framework to ensure the success of joint examinations, the Department of Translation at the College of Arts, Alnoor University, organized a visit to the Department of Translation at the University of Mosul. A joint meeting was held between the two departments to discuss the details and mechanisms of the joint examination, which will be implemented for post-first-year academic stages. The discussions focused on establishing unified standards for exam questions and ensuring a high level of precision, fairness, and rigor in evaluation between the two universities. This initiative aims to improve students' competencies and enhance the level of academic education.
