

Sustainable Development Goals

Quality Education

4 QUALITY EDUCATION

Access to education can enhance quality of life and prepare future leaders who will find solutions to global challenges. Providing education to children in technical, vocational, and entrepreneurial skills will serve as a foundation for sustainable development through scholarships and educational facilities, as well as eliminating gender disparities in access to education.

Quality Education

College of Arts

Alnoor University strives to provide its humanities students with practical, field-based exposure to landmarks and locations relevant to their specialties. As part of this approach, the university organized a live visit for students from the Departments of Translation and Archaeological Tourism in its College of Arts to the French Cultural Institute and the Nineveh Wall. The institute offered the students an opportunity for direct dialogue with specialists in the French language and an overview of the activities conducted by the institute. Additionally, the visit to the Nineveh Wall provided a firsthand view of a historical landmark that showcases the craftsmanship of ancient civilizations and offers insight into their methods of defending cities and imbuing them with the majesty they deserved.
