

# Sustainable Development Goals

## Reduced Inequalities

### 10 REDUCED INEQUALITIES

Global inequality is increasing, with 1% of the world's population holding nearly half of the global wealth. Goal 10 of the Sustainable Development Goals aims to ensure equal opportunities by adopting legislation and following policies that improve living conditions for everyone in a sustainable manner. Special attention must be given to the most vulnerable countries, such as the least developed countries and small island developing states, particularly through directing financial flows to them.

## Reduced Inequalities

### College of Education

In implementation of the Third National Plan (Women, Peace, and Security / Pillar of Participation and Institutional Reform, Paragraph 1: Family Leadership in Society), the Women's Affairs Unit at the College of Education, Alnoor University, organized a workshop titled "The Role of Women in Decision-Making." The workshop was attended by a number of students and female faculty members and was presented by Professor Dr. Shahrazad Mohammed Shihab, Head of the Women's Affairs Unit at the College of Education. She explained the role of decisions in our lives, addressing the steps of decision-making, types of decisions, decision classifications, and decision-making skills. The session emphasized how to make risk-free decisions and learn from past mistakes, thereby enhancing an individual's ability to make better decisions in the future.
