

Sustainable Development Goals

Reduced Inequalities

10 REDUCED INEQUALITIES

Global inequality is increasing, with 1% of the world's population holding nearly half of the global wealth. Goal 10 of the Sustainable Development Goals aims to ensure equal opportunities by adopting legislation and following policies that improve living conditions for everyone in a sustainable manner. Special attention must be given to the most vulnerable countries, such as the least developed countries and small island developing states, particularly through directing financial flows to them.

Reduced Inequalities

As part of its continuous daily activities aimed at strengthening its connections with its wide family and the community, the Women's Affairs Division at the College of Law, Alnoor University, organized an educational seminar titled "*Justice and Equality and Their Impact on Social Solidarity.*" The seminar was supervised and conducted by faculty member Marwa Hadi Kzar.
