## Sustainable Cities and Communities

### 11 SUSTAINABLE CITIES AND COMMUNITIES

Cities are hubs for ideas, trade, culture, science, production, social development, and other human activities. They play a crucial role in enabling people to achieve social and economic advancement. It is essential to mobilize support to ensure that policymakers are convinced of the need to include access to information in national and regional development plans.

The Thalassemia Committee at Alnoor University organized a cultural and recreational tour for a number of thalassemia patients in cooperation with the administration of Al-Hadba Specialized Hospital for Hematology and Bone Marrow Diseases. The tour began at Dijlah Complex in the Al-Shallalat area, then continued at Alnoor University, where they were welcomed by Professor Dr. Yassin Taha Al-Hajjar, the university president. He greeted them, spoke with them, and a tour of the university was organized for them.
