## Climate Action

### 13 CLIMATE ACTION

No country in the world is immune to the serious effects of climate change. Greenhouse gas emissions continue to rise and are now 50 percent higher than their levels in 1990. Moreover, global warming is causing long-term changes to our climate system, threatening irreversible consequences if we do not take necessary mitigation and adaptation actions today.

## Climate Action

The Quality Assurance Department at the Presidency of Alnoor University held a lecture session on the periodic plan for promoting sustainability culture, focusing on the topic: *"Climate Change and Its Impact on Iraq."* The session featured presentations by Assistant Professor Dr. Rashid Mahmoud Youssef, Director of Quality Assurance and University Performance at the university presidency, and Professor Dr. Hanaa Ihsan Al-Baroudi, Head of the Radiology Technologies Department at the College of Health and Medical Technologies.
