

# Sustainable Development Goals

## Quality Education

### 4 QUALITY EDUCATION

Access to education can enhance quality of life and prepare future leaders who will find solutions to global challenges. Providing education to children in technical, vocational, and entrepreneurial skills will serve as a foundation for sustainable development through scholarships and educational facilities, as well as eliminating gender disparities in access to education.

### College of Health and Medical Technologies

Alnoor University received first-year students from the Department of Vision Examination Technologies at the Technical Medical Institute of the Northern Technical University on a scientific visit to the Department of Optics Technologies at the College of Health and Medical Technologies at Alnoor University. During the visit, they toured the laboratories and classrooms, and explored the university campus to get acquainted closely with its academic environment. The students expressed their admiration and appreciation for the modern devices and equipment they saw, which are considered essential for their academic studies in the field of Optics Technologies and supporting disciplines. As a highlight of this scientific tour, the students visited the President of Alnoor University, Professor Dr. Yaseen Taha Al-Hajjar, presented him with a bouquet of flowers, and listened to him as he spoke about the university, cooperation, and the noble efforts aimed at advancing the higher education sector.
