Reduced Inequalities

10 REDUCED INEQUALITIES

Global inequality is increasing, with 1% of the world's population holding nearly half of the global wealth. Goal 10 of the Sustainable Development Goals aims to ensure equal opportunities by adopting legislation and following policies that improve living conditions for everyone in a sustainable manner. Special attention must be given to the most vulnerable countries, such as the least developed countries and small island developing states, particularly through directing financial flows to them.

Reduced Inequalities

The Women's Affairs Division at Alnoor University organized an awareness workshop titled “The Role of Women in Peace and Security: Challenges and Opportunities,” under the supervision of Dr. Walaa Al-Jawadi. She emphasized the importance of women's participation in achieving peace and decision-making, based on UN Security Council Resolution 1325 of the year 2000.
