Sustainable Cities and Communities

11 SUSTAINABLE CITIES AND COMMUNITIES

Cities are hubs for ideas, trade, culture, science, production, social development, and other human activities. They play a crucial role in enabling people to achieve social and economic advancement. It is essential to mobilize support to ensure that policymakers are convinced of the need to include access to information in national and regional development plans.

The Food Festival kicked off its third edition with the support and sponsorship of Alnoor University. Over the course of ten days, hundreds of city residents attended the event. The festival was graced by the presence of the Governor of Nineveh, Abdulqader Al-Dakhil, along with several members of the Provincial Council, officials, artists, and poets. The event featured a variety of activities, including Ramadan-themed competitions and gift distributions for the winners. Alnoor University also set up service booths representing its medical, health, and humanities faculties, including dental, medical laboratory, and optometry wings, which provided consultation and treatment services. At the festival's conclusion, Dr. Bashar Mahmoud Ali, Chairman of Alnoor University's Board of Directors, honored the contributors in recognition of their efforts in making the event a success.
