Sustainable Development Goals

Partnerships For The Goals

17 PARTNERSHIPS FOR THE GOALS

The world today is more interconnected than ever before. Improving access to technology and knowledge is a crucial way to exchange ideas and foster innovation. Additionally, coordinating policies to help developing countries manage their debts, as well as encouraging investment in the least developed countries, is vital for achieving growth and sustainable development.

College of Technical Engineering

The College of Technical Engineering at Alnoor University has signed a twinning agreement with the Technical Engineering College of Computer and Artificial Intelligence at the Northern Technical University to strengthen academic and scientific cooperation in the field of Artificial Intelligence Technologies Engineering. The agreement aims to exchange expertise, develop curricula, and support scientific research, in addition to establishing an Artificial Intelligence Club as a strategic initiative to foster innovation capabilities among students and faculty members. The agreement also includes cooperation in organizing scientific conferences, joint publications, and the formation of a joint coordination committee to ensure the follow-up and activation of cooperation areas.
