

Sustainable Development Goals

Quality Education

4 QUALITY EDUCATION

Access to education can enhance quality of life and prepare future leaders who will find solutions to global challenges. Providing education to children in technical, vocational, and entrepreneurial skills will serve as a foundation for sustainable development through scholarships and educational facilities, as well as eliminating gender disparities in access to education.

Quality Education

College of Technical management

The College of Technical management at Alnoor University organized an educational field visit for students of the Administrative Technologies Department to the Central Library at the University of Mosul. The visit was supervised by Dr. Muthanna Abdul Razzaq Hassan Al-Dabbagh, Dr. Mustafa Mohammed Mahmoud, and Assistant Lecturer Abdullah Sami Ali. During the visit, the students explored the history of the Central Library, viewed images documenting different historical periods through a dedicated photo exhibition, and examined old historical books, volumes, various dictionaries, and ancient copies of the Holy Qur'an. They also toured several specialized halls within the library and learned about methods for accessing books and research materials, whether through traditional means or modern digital interfaces. The visit concluded with the students viewing the administrative and accounting books located on the second floor of the Central Library.
