

Sustainable Development Goals

Quality Education

4 QUALITY EDUCATION

Access to education can enhance quality of life and prepare future leaders who will find solutions to global challenges. Providing education to children in technical, vocational, and entrepreneurial skills will serve as a foundation for sustainable development through scholarships and educational facilities, as well as eliminating gender disparities in access to education.

Quality Education

College of Dentistry

Under the patronage of Professor Dr. Yaseen Taha Al-Hajjar, President of Alnoor University, the College of Dentistry at the university launched the activities of the 5th Student Forum under the slogan: *"With knowledge and action, we build the nation and realize hope."* The two-day forum featured 17 student research presentations—eight on the first day and nine on the second. The opening session began with a speech by Dr. Al-Hajjar, followed by a speech from Professor Dr. Talal Hameed Al-Salman, Dean of the College of Dentistry. Student Avin Ali presented a research paper titled *"Artificial Intelligence in Dentistry."* The opening session was attended by the university's Vice Presidents for Administrative and Scientific Affairs, several deans, and faculty members. On the sidelines of the forum, several student-led activities were held, including a charity market (bazaar), a scientific products exhibition, and a poster presentation showcase. The forum concluded with a closing address by Dean Dr. Al-Salman, followed by the honoring of students whose six research papers were selected as the most distinguished among the presentations.
