

Sustainable Development Goals

Quality Education

4 QUALITY EDUCATION

Access to education can enhance quality of life and prepare future leaders who will find solutions to global challenges. Providing education to children in technical, vocational, and entrepreneurial skills will serve as a foundation for sustainable development through scholarships and educational facilities, as well as eliminating gender disparities in access to education.

As part of supporting initiatives aimed at paving the way for the future of younger generations, helping them envision their path, and fostering conditions that prepare them to assume leadership roles in society, Dr. Bashar Mahmoud Ali, Chairman of the Board of Trustees of Alnoor University, attended the interviews for the 11th cohort of the "Hope Scholarship" conducted by the International Academy for Leadership and Development. Alnoor University was chosen as the venue and a supportive partner for this scholarship. The interviews witnessed a promising turnout of applicants. The International Academy was represented in these meetings by its president, Dr. Moath Salem.
