

Sustainable Development Goals

Quality Education

4 QUALITY EDUCATION

Access to education can enhance quality of life and prepare future leaders who will find solutions to global challenges. Providing education to children in technical, vocational, and entrepreneurial skills will serve as a foundation for sustainable development through scholarships and educational facilities, as well as eliminating gender disparities in access to education.

Quality Education

College of Applied Arts

The College of Applied Arts at Alnoor University organized three interactive workshops for first-year students in the Department of Interior Design, in collaboration with Valery Company. The workshops focused on the use of ceramic and porcelain materials in interior design. The sessions were conducted by the company's director and the head of its ceramics division, along with faculty member Mr. Aws Khalid Al-Dabbagh. The content centered on the properties of these materials and the techniques used for their installation. The workshops witnessed strong student engagement and were held under the supervision of the Dean of the College, Dr. Nizar Abdul Latif, as part of the practical application of the theoretical curriculum.
