Sustainable Development Goals

Quality Education

Access to education can enhance quality of life and prepare future leaders who will find solutions to global challenges. Providing education to children in technical, vocational, and entrepreneurial skills will serve as a foundation for sustainable development through scholarships and educational facilities, as well as eliminating gender disparities in access to education.

Al-Noor University held a special workshop on the modern platforms used for its academic journals. The session was delivered by Professor Dr. Muneer Al-Badrani, the university's scientific advisor, and was attended by faculty members and researchers from various colleges and departments. The workshop covered an introduction to the platform, how to register, log in, and submit research papers.
