Sustainable Cities and Communities

11 SUSTAINABLE CITIES AND COMMUNITIES

Cities are hubs for ideas, trade, culture, science, production, social development, and other human activities. They play a crucial role in enabling people to achieve social and economic advancement. It is essential to mobilize support to ensure that policymakers are convinced of the need to include access to information in national and regional development plans.

On the occasion of Iraqi Academics Day, Alnoor University hosted the central celebration organized by the Iraqi Academics Syndicate and sponsored by the university. The event was attended by Professor Dr. Muzahim Qasim Al-Khayat, Chairman of the Parliamentary Committee for Higher Education; Dr. Ali Maseer Yaseen, Head of the Iraqi Academics Syndicate; along with the presidents of the Universities of Mosul, Tikrit, Northern Technical, Hamdaniya, Alnoor, and Al-Hadba, as well as several deans from Nineveh's universities. The celebration opened with speeches by the Chairman of the Parliamentary Higher Education Committee and the Head of the Nineveh Branch of the Academics Syndicate. Two videos were then screened—one introducing the Syndicate and another highlighting Alnoor University. The event also included the presentation of honorary shields to university presidents and syndicate members, as well as the distribution of medals to current and former university presidents, deans, retirees, families of the deceased, and distinguished individuals recognized for their contributions to scientific research, examinations, and academic representation. This celebration underscores the vital role of the Iraqi academic as a cornerstone in the advancement of education and the building of a better future.
