

# Sustainable Development Goals

## Quality Education

### 4 QUALITY EDUCATION

Access to education can enhance quality of life and prepare future leaders who will find solutions to global challenges. Providing education to children in technical, vocational, and entrepreneurial skills will serve as a foundation for sustainable development through scholarships and educational facilities, as well as eliminating gender disparities in access to education.

## Quality Education

In the presence of Professor Dr. Yassin Taha Al-Hajjar, President of Alnoor University, and Dr. Bashar Mahmoud, Chairman of the University Board of Trustees, the university held a celebratory gathering to honor the efforts of its deans, heads of academic departments, faculty members, and students who participated in the evaluative examinations and achieved outstanding results, earning an “Excellent” grade in the subjects included in the exam. Certificates of appreciation and gifts were presented to them as an expression of the university’s appreciation for its members who contribute to its distinction, academic integrity, and success in fulfilling its educational and scientific mission. The event was also attended by the Assistant President for Administrative Affairs, a number of college deans, the university’s scientific advisor, and heads of the relevant departments.
