

Sustainable Development Goals

Quality Education

4 QUALITY EDUCATION

Access to education can enhance quality of life and prepare future leaders who will find solutions to global challenges. Providing education to children in technical, vocational, and entrepreneurial skills will serve as a foundation for sustainable development through scholarships and educational facilities, as well as eliminating gender disparities in access to education.

Quality Education

College of Health and Medical Technologies

Under the presence of Professor Dr. Yaseen Taha Al-Hajjar, President of Alnoor University, and as part of the graduation requirements for fourth-year students in the Medical Laboratory Department – College of Health and Medical Technologies, graduation research discussions were conducted. Student groups presented their research sequentially before committees of faculty members from the department to assess their scientific value. These research projects represent an important step in training students to prepare and complete scientific research within their specialization, while also enhancing their academic and research skills.
