## Quality Education

### 4 QUALITY EDUCATION

Access to education can enhance quality of life and prepare future leaders who will find solutions to global challenges. Providing education to children in technical, vocational, and entrepreneurial skills will serve as a foundation for sustainable development through scholarships and educational facilities, as well as eliminating gender disparities in access to education.

## Quality Education

A ministerial committee visited Alnoor University to inspect the medical and health laboratories at the university. The committee members were received and welcomed by Prof. Dr. Ismail Abdulwahab, Assistant President of the University for Scientific Affairs. The committee then conducted a tour of the laboratories, accompanied by Asst. Prof. Dr. Nabil Ahmed Jargis, the Administrative Assistant to the University President. The committee reviewed the laboratories' readiness for practical laboratory work as a complement to theoretical study and to enhance it with hands-on field application. They also assessed the suitability of the building spaces to function as laboratories, the nature of the furnishing and scientific equipment, the safety systems in place, the staff working in the labs, and the extent of modernization carried out in accordance with the Ministry's standards for the accreditation of educational laboratories in universities.
