Quality Education

4 QUALITY EDUCATION

Access to education can enhance quality of life and prepare future leaders who will find solutions to global challenges. Providing education to children in technical, vocational, and entrepreneurial skills will serve as a foundation for sustainable development through scholarships and educational facilities, as well as eliminating gender disparities in access to education.

Quality Education

College of Arts

The Department of Student Activities and the Department of Digital Media at the College of Arts, Alnoor University, organized a training workshop for Digital Media students, titled: “Fundamentals of Content Creation for Social Media Platforms.” The workshop included the participation of students from both Alnoor and Mosul Universities, in collaboration with the Iraqi Network for Investigative Journalism (NIRIJ) and with support from the International Media Support (IMS) organization. Held on Alnoor University campus, the workshop spanned three days of both theoretical and practical training. Specialized trainers presented various topics on digital content creation, audience engagement, and professional platform management. As part of the workshop, 15 participating students were selected to receive grants for producing digital content under the direct supervision of the organizing entities. The event concluded with the distribution of participation certificates in an interactive atmosphere that emphasized the importance of such training in empowering students and enhancing their readiness for the media and digital communication fields.
