

Sustainable Development Goals

Quality Education

4 QUALITY EDUCATION

Access to education can enhance quality of life and prepare future leaders who will find solutions to global challenges. Providing education to children in technical, vocational, and entrepreneurial skills will serve as a foundation for sustainable development through scholarships and educational facilities, as well as eliminating gender disparities in access to education.

Quality Education

College of Engineering

Alnoor University launched the third edition of its free field training program for students and graduates of engineering colleges specializing in civil engineering, architecture, and construction engineering. The program is held in cooperation with Taameer Engineering Consultancy Office. The first day included opening lectures delivered by Dr. Bashar Mahmoud Ali, Chairman of the Board of Trustees of Alnoor University; Dr. Ismail Abdul Wahab, Vice President for Scientific Affairs; Eng. Ahmed Al-Obaidi, Director of Taameer Office; Dr. Eng. Fahd Al-Hamdani; and Eng. Omar Salahuddin. All speakers emphasized the importance of practical training in preparing students for the labor market and enhancing their applied skills. In his speech, Dr. Bashar Mahmoud Ali stressed the significance of such initiatives in developing students' capabilities and preparing them professionally. He praised the fruitful collaboration between the university and the local engineering sector in supporting the educational journey. This program represents a valuable opportunity for participants to gain field experience and practical knowledge that will qualify them to enter the labor market efficiently, in line with Alnoor University's vision of supporting applied education and strengthening partnerships with community institutions.
