

# Sustainable Development Goals

## Quality Education

### 4 QUALITY EDUCATION

Access to education can enhance quality of life and prepare future leaders who will find solutions to global challenges. Providing education to children in technical, vocational, and entrepreneurial skills will serve as a foundation for sustainable development through scholarships and educational facilities, as well as eliminating gender disparities in access to education.

## Quality Education

### College of Dentistry

In the presence of Prof. Dr. Yassin Taha Al-Hajjar, President of Alnoor University, and Dr. Bashar Mahmoud Ali, Chairman of the University's Board of Trustees, the College of Dentistry at Alnoor University organized an early training workshop for its students titled: "Your Content Reflects Your Skills – How to Professionally Market Your Services as a Dentist." The workshop featured Dr. Ahmed Saad, a specialist in dental aesthetics and treatment, representative of the European Society of Cosmetic Dentistry in Iraq, and an international lecturer in the field of cosmetic dentistry. This workshop comes as part of the college's efforts to support the comprehensive development of its students, introduce them to knowledge fields that complement their specialization, and enhance their skills in medical marketing and professional content creation — equipping them to successfully engage with the job market. Also in attendance were Prof. Dr. Ismail Abdulwahab, the University President's Scientific Assistant, Prof. Dr. Talal Al-Salman, Dean of the College of Dentistry, and a group of the college's faculty members. At the conclusion of the workshop, the Chairman of the Board of Trustees honored the guest speaker by presenting him with the Alnoor Shield in appreciation of his outstanding contribution.
