Sustainable Development Goals

Quality Education

Access to education can enhance quality of life and prepare future leaders who will find solutions to global challenges. Providing education to children in technical, vocational, and entrepreneurial skills will serve as a foundation for sustainable development through scholarships and educational facilities, as well as eliminating gender disparities in access to education.

College of Health and Medical Technologies

The Department of Medical Laboratory Techniques at the College of Health and Medical Technologies at Alnoor University organized a workshop titled: *"Discussion of National Standards for the Accreditation of Programs in Colleges and Institutes of Health and Medical Technologies: Methods for Collecting Evidence, Writing National Standards Reports, and the Improvement Plan."* The workshop was conducted and presented by Assistant Professor Dr. Hadi Mohammed, with the participation of heads and members of the committees responsible for preparing the national standards reports within the department. The participants discussed mechanisms for documenting evidence and strategies for enhancing academic performance in accordance with national accreditation requirements.
