Sustainable Cities and Communities

11 SUSTAINABLE CITIES AND COMMUNITIES

Cities are hubs for ideas, trade, culture, science, production, social development, and other human activities. They play a crucial role in enabling people to achieve social and economic advancement. It is essential to mobilize support to ensure that policymakers are convinced of the need to include access to information in national and regional development plans.

In a gesture that reflects true belonging to the city of Mosul, Alnoor University, in collaboration with *Baytuna Foundation*—the university’s cultural arm—organized a special reception and celebration on the occasion of Mosul Sports Club’s promotion to the Iraq Stars League. The event took place amid a large turnout of Nineveh residents and university students, with flags waving and chants rising in joy over this achievement that brought happiness back to the hearts of the city’s people. The university leadership affirmed that this support stems from a deep belief in the role of sports in uniting society, emphasizing that Alnoor University will always remain a home for success and a true partner to all who contribute to raising the name of Mosul high.
