

Sustainable Development Goals

Quality Education

4 QUALITY EDUCATION

Access to education can enhance quality of life and prepare future leaders who will find solutions to global challenges. Providing education to children in technical, vocational, and entrepreneurial skills will serve as a foundation for sustainable development through scholarships and educational facilities, as well as eliminating gender disparities in access to education.

Quality Education

College of Engineering

Third-year students from the Department of Petroleum Engineering at the College of Engineering, Alnoor University, participated in the Startup Exchange training program, held in Basra Governorate and organized by the *Mishwar Foundation*. The program aimed to develop students' skills in the oil sector while enhancing concepts of entrepreneurship and innovation through practical workshops and intensive training sessions with specialists and experts in various fields. This participation represented a genuine opportunity to refine their skills and benefit from real-world experiences that contribute to building their professional future, as well as to represent Alnoor University and the Department of Petroleum Engineering in the best possible manner. During the program, they were visited by Professor Dr. Adnan Abdullah Atiq, President of the Southern Technical University, who met with them at their training and accommodation sites
