

Sustainable Development Goals

Quality Education

4 QUALITY EDUCATION

Access to education can enhance quality of life and prepare future leaders who will find solutions to global challenges. Providing education to children in technical, vocational, and entrepreneurial skills will serve as a foundation for sustainable development through scholarships and educational facilities, as well as eliminating gender disparities in access to education.

Quality Education

College of Pharmacy

The College of Pharmacy received Dr. Yasser Hazem Saber, a faculty member at the College of Pharmacy, University of Nineveh, and the national coordinator for program accreditation of pharmacy colleges in Iraq. This visit was part of the college's efforts to enhance the quality of education and achieve academic accreditation standards. During the visit, an extensive meeting was held with the Dean of the College, Assistant Professor Dr. Omar Al-Laylah, along with the academic and administrative assistants and the Head of the Department of Pharmacology, to discuss the importance of obtaining program accreditation and its role in developing the educational process and improving academic outcomes. The meeting also reviewed the steps and procedures necessary to meet accreditation requirements. This visit aligns with the college's plan to achieve the highest standards of quality and excellence in pharmaceutical education, serving both the community and the healthcare sector.
