

Sustainable Development Goals

Quality Education

4 QUALITY EDUCATION

Access to education can enhance quality of life and prepare future leaders who will find solutions to global challenges. Providing education to children in technical, vocational, and entrepreneurial skills will serve as a foundation for sustainable development through scholarships and educational facilities, as well as eliminating gender disparities in access to education.

Quality Education

Alnoor University has launched an English conversation course titled “Mosul Speak up!”, designed for the university’s teaching and administrative staff, as part of its program to develop language skills and enhance communication abilities. The course is delivered by Assistant Lecturer Mohammed Nizar Al-Abbasi, Head of the Voluntary Work Unit in the Department of Student Activities. It aims to improve speaking and listening skills in English and enable participants to use the language in various academic and everyday situations, thereby contributing to improving academic and administrative performance and keeping pace with labor market requirements. The course runs for eight weeks, with two sessions per week, in an interactive atmosphere that emphasizes practical training and the exchange of experiences.
