## Sustainable Cities and Communities

### 11 SUSTAINABLE CITIES AND COMMUNITIES

Cities are hubs for ideas, trade, culture, science, production, social development, and other human activities. They play a crucial role in enabling people to achieve social and economic advancement. It is essential to mobilize support to ensure that policymakers are convinced of the need to include access to information in national and regional development plans.

## Sustainable Cities and Communities

At the conclusion of the summer season, Alnoor University continues its ongoing support for religious courses and Qur'an memorization programs across Nineveh Governorate. This comes from its belief in the importance of such courses in instilling spiritual values and strengthening Qur'anic culture among youth and adolescents. The university's sponsorship of these activities reflects its community mission, which aims to build a generation balanced in both knowledge and faith, capable of carrying the message of science and learning alongside the noble religious and moral values.
