Climate Action

13 CLIMATE ACTION

No country in the world is immune to the serious effects of climate change. Greenhouse gas emissions continue to rise and are now 50 percent higher than their levels in 1990. Moreover, global warming is causing long-term changes to our climate system, threatening irreversible consequences if we do not take necessary mitigation and adaptation actions today.

Climate Action

Alnoor University achieved a new academic milestone by winning seventh place among Iraqi universities in the Sustainable University with a Safe Environment Award (Athar Award for Sustainable Universities), out of more than 80 participating institutions, with only ten universities receiving this prestigious recognition. Organized by the Ministry of Higher Education and Scientific Research in cooperation with the Ministry of Environment and under the patronage of the Prime Minister, the award aims to promote safe environmental and sustainability standards in academic institutions. This accomplishment reflects Alnoor University's strong commitment to applying sustainability principles, enhancing campus infrastructure, ensuring a healthy and safe learning environment, and advancing initiatives in environmental awareness, energy conservation, waste management, and green space utilization—further strengthening its academic standing in national and international rankings.
