

Sustainable Development Goals

Quality Education

4 QUALITY EDUCATION

Access to education can enhance quality of life and prepare future leaders who will find solutions to global challenges. Providing education to children in technical, vocational, and entrepreneurial skills will serve as a foundation for sustainable development through scholarships and educational facilities, as well as eliminating gender disparities in access to education.

Sustainable Development Goals

Quality Education

College of Engineering

The Department of Petroleum Engineering at the College of Engineering – Alnoor University organized a practical training session for fourth-year students focused on testing specific gravity and water content in various petroleum products using specialized measuring instruments such as the graduated hydrometer and water detection reagents for petroleum derivatives. Dr. Mahmoud Abdul Karim Abdul Qader provided a detailed explanation of the practical testing methods and safe handling of petroleum samples, under the supervision of Dr. Taha Hussein Al-Salem, Head of the Petroleum Engineering Department. The training comes as part of the department's plan to enhance students' applied skills and bridge the gap between theoretical knowledge and practical application.
