Quality Education

4 QUALITY EDUCATION

Access to education can enhance quality of life and prepare future leaders who will find solutions to global challenges. Providing education to children in technical, vocational, and entrepreneurial skills will serve as a foundation for sustainable development through scholarships and educational facilities, as well as eliminating gender disparities in access to education.

Quality Education

College of Engineering

The College of Engineering at Alnoor University organized a scientific seminar titled *“Professional Ethics for Engineers”*, attended by a number of faculty members and students, during which the importance of adhering to professional principles in engineering practice was highlighted. The seminar was supervised by Professor Dr. Saad Al-Ta'an, Dean of the College, and moderated by Lecturer Salem Amaihidi Saleh. Assistant Lecturer Saad Saleh Thiyab delivered a presentation addressing key professional behaviors that engineers must follow, in addition to reviewing the laws and regulations that govern the engineer's responsibilities and role in society. The seminar aimed to raise awareness about the importance of professional ethics and to enhance the level of commitment to professional conduct among students before entering the job market. This event comes within the efforts of the College of Engineering at Alnoor University to promote values of integrity, discipline, and professional responsibility within the engineering education environment.
