### 11 SUSTAINABLE CITIES AND COMMUNITIES

Cities are hubs for ideas, trade, culture, science, production, social development, and other human activities. They play a crucial role in enabling people to achieve social and economic advancement. It is essential to mobilize support to ensure that policymakers are convinced of the need to include access to information in national and regional development plans.

## Sustainable Cities and Communities

As part of its commitment to preserving human heritage and safeguarding Iraq's cultural legacy, Alnoor University, through the Department of Translation in the College of Arts, participated in an international joint project to rehabilitate and restore damaged artifacts at the Civilization Museum in Mosul. The university's involvement was represented by Dr. Haseeb Elias Hadid, Assistant Professor in the Department of Translation, who provided simultaneous translation between French and Arabic during the work of the team of French experts from the Louvre Museum in Paris, within the framework of cultural and scientific cooperation between the two institutions. This initiative reflects Alnoor University's active role in supporting projects that revive Iraq's cultural heritage and in enhancing cultural and scientific communication with prestigious global institutions.
