17 PARTNERSHIPS FOR THE GOALS

The world today is more interconnected than ever before. Improving access to technology and knowledge is a crucial way to exchange ideas and foster innovation. Additionally, coordinating policies to help developing countries manage their debts, as well as encouraging investment in the least developed countries, is vital for achieving growth and sustainable development.

Partnerships For The Goals

The University received an official delegation from the Nineveh Provincial Council headed by Dr. Sara Muayed Al-Jubouri, Chair of the Youth and Sports Committee, and Dr. Fahd Saleh Dhiab, Director of the Citizens' Affairs Department, accompanied by a number of council staff members. The visit came within the framework of joint efforts to open new horizons of cooperation between the University and governmental institutions in the province. The delegation met with Dr. Bashar Mahmoud, Chairman of the Board of Trustees, and was accompanied on an organized tour to familiarize them with the University's facilities. During the meeting, both sides exchanged views on strengthening partnership in a way that serves the local community and enhances institutional performance, discussing opportunities to unify efforts in training, capacity building, knowledge development, and scientific and technical support. The meeting also emphasized the importance of mutual benefit, as the University, with its academic and research expertise, can support government departments through studies, consultations, and training, while the Provincial Council represents a key partner in empowering development programs and facilitating initiatives that contribute to improving services across the province.
