17 PARTNERSHIPS FOR THE GOALS

The world today is more interconnected than ever before. Improving access to technology and knowledge is a crucial way to exchange ideas and foster innovation. Additionally, coordinating policies to help developing countries manage their debts, as well as encouraging investment in the least developed countries, is vital for achieving growth and sustainable development.

Sustainable Development Goals

Partnerships For The Goals

As part of promoting early awareness among secondary school students of the reality of higher education institutions in Nineveh Governorate, a delegation from Al-Hadbaa High School for Outstanding Girls visited Alnoor University, comprising a group of high-achieving students and several of their teachers. The University organized an introductory tour for the delegation that included visits to the teaching clinics of the College of Dentistry, as well as several laboratories of the health and medical technologies departments, where the students were introduced to the nature of study and practical applications in these fields. The visit also featured orientation lectures delivered by a number of university faculty members, highlighting the academic landscape of the University's disciplines and the prospects for studying there, thereby helping the students shape their academic futures and choose majors that align with their interests and abilities.
