

Sustainable Development Goals

Quality Education

4 QUALITY EDUCATION

Access to education can enhance quality of life and prepare future leaders who will find solutions to global challenges. Providing education to children in technical, vocational, and entrepreneurial skills will serve as a foundation for sustainable development through scholarships and educational facilities, as well as eliminating gender disparities in access to education.

Sustainable Development Goals

Quality Education

As part of the series of scientific workshops on research methodology, Professor Dr. Munir Salem Al-Badrani, Scientific Advisor to Alnoor University, delivered a specialized scientific lecture entitled *“How to Choose the Appropriate Journal for Publishing Scientific Research,”* held in a hybrid (in-person and online) format. The lecture addressed a number of key topics of interest to researchers and postgraduate students, including criteria for selecting reputable journals, methods for verifying impact factors, the importance of avoiding predatory journals, as well as clarifying the differences between international and local journals and internationally recognized publication requirements. Dr. Al-Badrani also presented practical steps to help researchers increase the chances of their papers being accepted, emphasizing the importance of adhering to publication ethics and ensuring the quality of research methodology and academic language. The workshop witnessed strong interaction from faculty members and researchers, who enriched the session with their questions and scholarly contributions, reflecting Alnoor University’s ongoing commitment to supporting scientific research and enhancing academic output in accordance with global standards.
