

Sustainable Development Goals

Quality Education

4 QUALITY EDUCATION

Access to education can enhance quality of life and prepare future leaders who will find solutions to global challenges. Providing education to children in technical, vocational, and entrepreneurial skills will serve as a foundation for sustainable development through scholarships and educational facilities, as well as eliminating gender disparities in access to education.

Quality Education

College of Dentistry

The College of Dentistry at Alnoor University organized a specialized scientific lecture that provided academic and practical guidance to undergraduate students on how to select appropriate cases for root canal treatment, in line with modern scientific standards and aimed at enhancing their clinical skills. The lecture was held under the supervision and attendance of Professor Dr. Talal Hamid Al-Salman, Dean of the College, and was delivered by Assistant Professor Dr. Maen Mowafaq Nayef. It addressed proper diagnostic principles, criteria for evaluating medical cases, and treatment decision-making mechanisms to ensure the best outcomes for patients and minimize potential complications. The lecture witnessed notable student engagement through questions and discussions of clinical cases, reflecting the College's commitment to strengthening practical training and enhancing students' academic and professional competence in order to prepare qualified dental professionals capable of delivering high-quality healthcare services to the community.
