

Sustainable Development Goals

Quality Education

4 QUALITY EDUCATION

Access to education can enhance quality of life and prepare future leaders who will find solutions to global challenges. Providing education to children in technical, vocational, and entrepreneurial skills will serve as a foundation for sustainable development through scholarships and educational facilities, as well as eliminating gender disparities in access to education.

Quality Education

College of Education

In the presence of Professor Dr. Yaseen Taha Al-Hajjar, President of Alnoor University, and Professor Dr. Ismail Abdul Wahab, the Scientific Assistant to the President, the Language Club affiliated with the Center of Linguistics at Alnoor University organized an open English-language discussion session for students, faculty members, and interested participants to address an important question in career development: which is more valuable in the workplace, an academic degree or practical experience, particularly in light of the skills demanded by the labor market? The session presented diverse and contrasting perspectives, as participants highlighted the importance of academic qualification as the theoretical and methodological foundation, in contrast to practical experience, which serves as the true measure of competence and the application of knowledge in real-life settings, emphasizing that well-developed skills represent the meeting point between the two. The session was moderated by Assistant Lecturer Mohammed Bashar and media professional Yasmin Amer, who enriched the discussion and organized audience contributions, giving the session a distinctive interactive character that reflects the Language Club's mission to promote dialogue and develop English communication skills within the university community. The session was also attended by Professor Dr. Kamil Ali Abdul Mohsen, Dean of the Engineering Technical College; Professor Dr. Khazal Fathi Zaidan, Dean of the College of Education; Professor Dr. Munir Salem Al-Badrani, Scientific Advisor to the University; along with a number of directors from the university presidency departments.
