## No Poverty

**1** NO POVERTY

Poverty is a condition attributed to individuals who are unable to meet their basic needs, which include all the essentials required for human survival and reflect the prevailing standard of living in society. Poverty impacts many aspects of life, leading to reduced levels of education, poor health, and inability to work. It also results in higher rates of vandalism and disorder within the community.

## No Poverty

In line with the directives of the Ministry of Higher Education and Scientific Research aimed at strengthening the engagement of private universities and colleges with society and supporting civil society institutions, Alnoor University, in cooperation with the Barzani Charity Foundation, launched an initiative to distribute Eid clothing to a number of orphans in Nineveh Governorate on the occasion of the blessed Eid Al-Adha. This humanitarian initiative stems from Alnoor University's commitment to social responsibility and its continuous efforts to support vulnerable groups, bring joy and happiness to orphaned children, and promote the values of solidarity, compassion, and humanitarian cooperation. It also reflects the humanitarian role of academic institutions in serving society beyond their educational and scientific missions. Alnoor University reaffirmed its commitment to continuing such social and humanitarian initiatives that strengthen the bonds of compassion and social solidarity, while further reinforcing the role of academic institutions in community service and creating a sustainable positive impact within society.
